## Interview

**Question 1:** How old are you and where are you from?

**Answer:** I am 23 years old and I come from the canton of Zurich. I have lived here all my life and I know the local motorcycle scene quite well.

**Question 2:** When did you become interested in motorcycles?

**Answer:** I became interested in motorcycles when I was about 16 years old. At that time, I started watching videos and reading about different motorcycle models and custom builds.

**Question 3:** What are custom motorcycles?

**Answer:** Custom motorcycles are bikes that are individually modified. The goal is to change motorcycles to match your own style and make it unique.

**Question 4:** Why do you find custom motorcycles interesting?

**Answer:** I find custom motorcycles interesting because they allow a lot of creativity. Every bike looks different and shows the personality of its owner.

**Question 5:** Which parts are most often modified?

**Answer:** The most modified parts are the handlebars, seat, exhaust, and paintwork. These parts strongly affect both the look and the riding experience.

**Question 6:** Is customizing motorcycles allowed in Switzerland?

**Answer:** Yes, customizing is allowed, but there are strict rules. All parts must be approved and the safety regulations must be followed.

**Question 7:** What is especially important when customizing a bike?

**Answer:** Safety is the most important aspect, as well as official approval by the road traffic authorities. Without approval, the motorcycle cannot be used on public roads.

**Question 8:** Are there many custom motorcycle riders in Switzerland?

**Answer:** Yes, especially during the summer you see many custom bikes on the roads. There are also meetings and events where riders share ideas and experiences.

**Question 9:** What do you personally like most about custom motorcycles?

**Answer:** I like the freedom of building and riding something you created yourself. You invest a lot of time and effort, and the result is very rewarding.

**Question 10:** Would you like to work in this field in the future?

**Answer:** Yes, I can imagine working in this field one day. Maybe in a custom motorcycle workshop or with my own project.

of the process he enjoys the most.
